## Traditional Portuguese Home with Urban Land For Sale in Silves

in Silves, Silves

Sitting within the village of Cumeada in Silves, Central Algarve, this large 4/5 bed roomed property is a traditional Portuguese house which is ready to be renovated and brought back to life. This property would make a fantastic home, boutique bed and breakfast, or even a yoga retreat as it comes as part of a package with another 3 plots of urban land. It is situated in a quiet countryside location approximately 6 kms from the historical centre of Silves, with easy access to all the facilities that the central Algarve is renown for.

The land provides the opportunity to develop the facilities further, and is an exciting investment for the right person.

From the property itself and the three plots of land there are amazing views across the valley, which would turn into a wonderful garden or a special relaxation area for guests. Many of the original features are still present such as the original bread oven, which in its day was used by the villagers for baking.
