in Odeceixe, Aljezur

\*\*\* Online Sale - Recently reduced from 1,100,000€ \*\*\*

A large 16 hectares plot of land for sale in Odeceixe, situated within a quiet area offering great potential for rural tourism as well as agricultural projects and housing.

Surrounded by pine trees, eucalyptuses and more of the Algarves nature at its finest, this plot would make a great farm space for those wanting to grow their own vegetables and home their own animals, especially horses.

The good quality of soil will certainly help when it comes to the production of a variety of vegetables such as sweet potatoes, and if looking to start your own vineyard fruit trees will thrive due to the many nutrients that will be provided along with an irrigation system in place. To keep costs down there is a possibility of filtering water from the Santa Clara channel.

A line for drinkable water can be located just 30 metres away as well as electricity, meaning you haven't got far to go to set up all the necessary utilities to kick start your new project.

Another opportunity you could look at would be an agricultural project, by obtaining a 25% mortgage and a 50% grant subsidy from the government all you would need it 25% equity to start your investment.
