### Traditional 3 Bedroom Apartment For Sale in Lagos in Lagos (são sebastião e santa maria), Lagos

A three bedroom apartment for sale in a great location close to Lagos Marina in the Western Algarve. This property has lots of potential for living, holidaying or using as a lucrative rental investment and the rooms can be configured to best suit your needs.

Close to schools, restaurants, shops and cafes and only an eight minute walk from the centre of Lagos, there is everything that you or your guests will need right on your doorstep.

Subject to the necessary permissions, there are several different ways that you could configure this apartment to ensure that it best suits your needs and your lifestyle. The current configuration is that the huge living room has been divided and two more bedrooms created making it an ideal holiday home or rental property for a large family or group of friends.

Alternatively, you could open up the wall between the kitchen and living room and have a lovely open plan space which would be ideal for entertaining. Another possible option is to close up this access altogether and create a separate two bedroom apartment which could be used to generate a good, ongoing rental income.

As well as fantastic potential for renovation and neutral decor throughout, this property also comes with double glazing, terrace (also with double glazing), elevator and three bathrooms.
